

Diet Recommendation System Using Machine Learning - Phase_2 Report.

Team Members:

1. Rajavath Deekshitha (12241450)
2. Guguloth Bhanu Prakash (12240620)
3. Katta Mukesh (12240770)
4. Kemasaram Nithin (12240780)
5. Ganta Srujan (12240580)

GitHub Link:

https://github.com/prakash2670/DietRecommendation_ML_Project.git

Contributions:

1. Finding Dataset and Modifying the Dataset with Necessary Changes – Rajavath Deekshitha
2. Data Pre-Processing, Data Cleaning - Ganta Srujan
3. Methodology Implementation – Katta Mukesh , Kemasaram Nithin
4. Working with Input and Output Management – Guguloth Bhanu Prakash.

Milestones:

1. Created a new dataset.
2. Data Pre-Processing.
3. User input Setup.
4. Recommendation System Development.

Pending Tasks:

1. Fine Tuning the Model.
2. Exercise and digestive Tips Integration.
3. Rectification and Error Handling.
4. Deployment.
